Claims 1-14, are pending in this application.

DETAILED ACTION

Election/Restriction

Claims 1-14 are drawn to more than one inventive concept (as defined by PCT Rule 13) and, accordingly, a restriction is required according to the provision of PCT Rule 13.2.

PCT Rule 13.1 states that the international application shall relate to one invention only or to a group of inventions so linked as to form a single general inventive concept (requirement of unity of invention).

PCT Rule 13.2 states that unity of invention referred to in Rule 13.1 shall be fulfilled only when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical features.

Annex B, Part 1(b), provides that special technical features mean those technical features which, as a whole, define a contribution over the prior art (novelty/unobviousness).

- I. Claims 1, 9-12, drawn to compounds of formula 1 and composition thereof, structures not identifiable and therefore not classifiable.
 - II. Claims 2-4, 6-7, drawn to second compounds and composition thereof, classifiable in class 549, and numerous subclasses.
 - III. Claims 5, 14, drawn to third compounds of formula, classifiable in classes 424, and numerous subclasses.
 - IV. Claim 8, drawn to optical component comprising compounds of group II, classifiable in classes 525, and numerous subclasses.
 - V. Claim 13, drawn to optical component comprising compounds of group I, not classifiable.
1. In the instant inventions, the only structural elements shared by groups I-V is thietane. However, thietane is well known in the art. See Dittmer et al., Org. Magnetic Resonance, Vol.

Art Unit: 1625

18(2), (1982), pp. 82-6. Therefore, under PCT Rules 13.1 and 13.2, thietane does not constitute a corresponding special technical feature among the groups.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
